WORK EXPERIENCE

CODTECH IT SOLUTIONS, Remote

Frontend Developer Intern

June 2024 - July 2024

- Built responsive and dynamic web applications using HTML5, CSS3, JavaScript, and React.js, ensuring cross-browser compatibility and mobile-first design principles.
- Developed a Personal Portfolio and To-Do List Application featuring local storage for persistent data saving, optimized for performance and usability.
- Collaborated in an Agile development environment, participating in sprints and daily stand-ups, while managing code repositories using Git and GitHub for version control. Gained practical experience in UI/UX design principles, component-based architecture, and debugging modern web interfaces.

NIELIT Guwahati, Assam, India

Machine Learning Intern

June 2023 - July 2023

- Completed hands-on training in Python programming and machine learning techniques, and developed a leaf disease detection system using image processing methods and libraries such as OpenCV, NumPy, and scikit-learn.

EDUCATION

Central Institute of Technology, Kokrajhar

B.Tech in Computer Science and Engineering

2021 - 2025

PROJECTS

CineScope - Movie Discovery Web App [🔗](#)

June 2025 - June 2025

- Built a responsive Netflix-style movie discovery app using React and Vite with modular components and state management. Integrated OMDb REST API to dynamically fetch movie data including titles, posters, ratings, genres, and plots.
- Implemented search functionality with controlled inputs, IMDb rating filters, and conditional rendering for UX flow.
- Designed reusable MovieCard and HeroBanner components with lazy image loading and custom loading spinners. Used React-Bootstrap and CSS to ensure mobile-first, responsive UI, maintaining consistency across devices.

BudgetWise - Expense Tracker Web App. [🔗](#)

June 2025 - June 2025

- Built a responsive and user-friendly expense tracker using React.js and Bootstrap, supporting mobile-first design. Implemented user authentication, transaction history with filtering, and saved transactions for quick reuse.
- Designed interactive dashboards with pie charts and line graphs to visualize income, expenses, and trends.
- Used tools like Chart.js and VS Code; managed project using GitHub and npm.

SKILLS

- Languages & Frameworks: HTML, CSS, JavaScript, Bootstrap, Tailwind, React, SQL, Python, LaTeX
- Tools & Platforms: VS Code, REST APIs, GitHub, Canva, Jupyter, Overleaf
